📍 ABES Engineering College

ABOUT ME

Motivated and detail-oriented Learner with hands-on experience in Data Science, Data Analysis, and AI model development. Skilled in Python, NumPy, Pandas, Matplotlib, Seaborn, Power BI, and PostgreSQL, with practical working on real-world business datasets to extract insights, create impactful visualizations and analysis. Currently looking for Internships related to Data Science and Artificial Intelligence.

EDUCATION

ABES Engineering College | 2026-2029

B.Tech in Computer Science & Engineering

Strong focus on Artificial Intelligence and Data Science. Passionate about building and training AI models, analyzing and visualizing data, and developing data-driven solutions to achieve meaningful outcomes.

PROJECTS

Budget Buddy

Helps you track your Finances in a visual format.

Tech Used : Python, Pandas, Matplotlib, Seaborn.

Optical Encryption System

Encrypts data in image format so that it can be stored and shared safely and can't be accessed without needed Algorithm.

Tech Used : Python, PyTorch, Autograd.

HACKATHONS & COMPETITIONS

Google Solution Challenge

Developed a technology-driven solution addressing real-world challenges using Google technologies.

IIT Delhi – HackArena

Collaborated in a competitive hackathon environment to design and deploy functional software prototypes.

IIMT – Matrix 3.0

Participated in rapid problem-solving and full-stack software development competitions.
